Process of Regional SDG 4 Benchmarking in the Arab States

- 28 September 2020 – Technical-level consultation with SDG 4 Support Group
- 27 October 2020 – Consultation with Member States

Key Takeaways

- Regional context on fragility and refugees are not reflected;
- Arab SDG4 support group can facilitate the benchmarking process, however the question remains as to how to boost up the country commitments;
- There is an absence of a region-wide education entity making it more important to find an organization (member-state based from the region) to facilitate this process
