

SDG 4 Benchmarks

A common framework of global, regional and national priorities to improve education program quality, efficiency & impact

4 QUALITY
EDUCATION

There is global commitment to honor the Education 2020 Framework for Action call to foster improvements in education outcomes

Education 2030 Framework for Action, 2015

Called on countries to establish “appropriate intermediate benchmarks (e.g., for 2020 and 2025)” for the SDG indicators, seeing them as “indispensable for addressing the accountability deficit associated with longer-term targets” (§28) .

Global Education Meeting, 2020

“We request UNESCO and its partners, together with the SDG-Education 2030 Steering Committee, to ... accelerate the progress and propose relevant and realistic benchmarks of key SDG 4 indicators for subsequent monitoring” (§10).

Benchmarks will improve outcomes through enhanced...

Alignment

- On a **focused set of global priority policy areas** for education
- On **regional benchmarks** as a minimum for each policy area
- On **national benchmarks** for countries to achieve, aligned to regional 'minimum floors'

Commitment

- **From countries** at the political level to work towards the benchmarks
- **From regional bodies** to **oversee country progress and peer learnings**
- From donors to **mobilize resources** to support ongoing progress

Monitoring

- **Country capability and capacity** to regularly report results (e.g. via EMIS)
- Using dashboards to **identify 'bright spots' and best-practices**
- Support aimed at fixing **low performance, bottlenecks, and cross-cutting issues**

Accountability

- **Focus on improvement** through routine country reporting
- Based on **country ownership** to make improvements
- Of partners and donors for provision of **targeted support based on evidence**

Each component is underpinned by a focus on ensuring regular, reliable, and high-quality education data at global, regional and country-levels

Dashboards and regular monitoring reports will be used to visualize progress at country and regional levels

- A **global benchmark dashboard** visualizes progress at all levels
- Allows **comparison** and **identification of 'bright spots'**
- **Intuitive, and usable** for stakeholders at all levels
- Countries are trained to **ensure effective-use**
- All stakeholders will have access, ensuring **transparency and accountability**
