Rotation of TCG membership

Alison Kennedy, UIS

June 2017

TCG Country Membership

- The membership of the TCG should be rotated from time to time
- In common with the IAEG-SDGs a proportion of members should be replaced every two years
- In the case of the TCG, this means that at the first meeting in 2018 there will be some new members

TCG Country Membership

- The first TCG members are from the countries which are members of the IAEG-SDGs which were selected by regional bodies to ensure regional representativeness
- The Secretariat proposes to seek nominations via the UNESCO Regional Groups in order to ensure a balanced regional representation

TCG Country Membership

- We recommend changing approximately one-third of members in order to retain some continuity whilst bringing in new ideas
- Nominations will be invited in the second half of 2017 and will be implemented in 2018
