Implementation of SDG4 in Brazil

Betina Fresneda

TCG4 Meeting

Dusit Thani Dubai

January 18, 2018

Previous actions

- International level
 - The Brazilian Institute of Geography and Statistics (IBGE) joined IAEG-SDGs as a member in 2015
- National level
 - 2015: first meeting of information producers
 - 2017: second meeting of information producers

- Further methodological standardization and definition of concepts related to Brazilian information on SDG 4 (focus on Tier I Indicators)
- Identification of data gaps regarding indicators 4.2.1, 4.3.1, 4.4.1, 4.6.1, 4.7.1, 4.a.1 (partially)
- Establishment of inter-institutional cooperation between INEP (statistics division of the Ministry of Education) and IBGE

TECHNICAL
COOPERATION
GROUP

National Commission for the SDGs

- Brazil has established a National Commission for the SDGs in 2017: statistics office (IBGE) is a permanent technical advisory body (indicators)
- 2017-2019 action plan creates national institutional mechanisms for implementing the 2030 Agenda

TECHNICAL
COOPERATION
GROUP

IBGE responsibilities as National Commission's technical advisor

- Coordination of 17 working groups (including several data producers)
- Data and methodological sheets production for global indicators "TIER I"
- Evaluation of national challenges for the production of SDG global indicators "TIER II" and "TIER III" (2018-2019)
- Development of SDG national indicators until mid 2019 (by working groups)
- Launch of Digital Platform for SDG indicators by March/2018

Digital platform for SDG data production and analysis

- Available online to different users (transparency)
- Access to raw data, graphics, maps, etc.
- Uses existing IBGE digital toolkit (statistics and geosciences)

Standardized methodological sheets for SDG Indicators

- Methodological sheets and data for SDG 4 TIER I indicators: 4.2.2, 4.a.1, 4.c.1

1	Concepts and definitions	8	Periodicity
2	Calculation formula	9	Temporal series
3	Unit of measurement	10	Related indicators
4	Variables, sources and institutions	11	Link to indicator
5	Geographical scope	12	Producer institution
6	Disaggregation	13	References
7	Target population	14	Contact

Challenges and next steps

- Definition of national indicators is quite challenging – third meeting of information producers in 2018
- Convergence between the SDG 4 thematic indicators and the Brazilian National Education Plan
- Lack of resources to overcome data gaps on official statistics for indicators “TIER II” and “TIER III”: data availability (present and future) and disaggregation issues (groups/regions)
- Promote integration, for SDG 4 dissemination and implementation, with public entities and agencies at the state, district and municipality levels
- Mobilize and engage organizations of civil society to follow up and work towards SDG 4 dissemination and implementation
